### CMCS COVID19 UPDATE:

Our school board and administration team are continually monitoring the latest news and recommendations from our local health offices. The School Board has voted to open up the school for a 5-day, traditional schedule. The School Board also voted that we will not require our students to wear masks, but they are allowed to if their parents want them to. We are currently writing new health and safety protocols to ensure our students' safety this year. An at-home independent study option will be available for students who are at-risk, live with someone who is at-risk, or need to take some time off school for health reasons. Parents would be given their child's curriculum and lesson plans for the week to help students stay on track with their peers. We will release a much more detailed plan for our school concerning health/safety in July. Thank you for your patience as we continue to monitor this ever-changing situation.

### IMMUNIZATIONS NEEDED

**Preschool and Kindergarten:** Current Immunization records and copies of birth certificates must be on file with the School Office by August 7.

**First Grade:** School physicals must be on file with the School Office prior to August 7.
